Secure Checkout

If you have a Paypal account, select **Paypal Checkout**. If not, select **Checkout** (the orange tab) and complete your details. After that stage you will still be directed to the Paypal payment gateway, but you do NOT need to open an account. Just select **Pay by Debit or Credit Card** (below) and you can simply enter your card details there. Paypal is merely a payment gateway like any other card machine in a shop

Log in to PayPal
